We have a lot of different ideas and we will try to implement them all :) Thanks to our Dresówka Team full engagement as well as partners and sponsors, our Fashion Show achieved a great success.

#### Welcome Elu :) How did you react when you got to know you are the winner in "Mum, sew for you!" contest? I was happy, of course!

It wasn't a lottery, I was chosen by the jury. My work was assessed and evaluated highest. I couldn't feel different than being satisfied, delighted and a bit proud.

#### As one of very few people you had the opportunity to visit our headquarter. What did you like the most?

Gigantic racks with huge amount of bales with different fabrics. For me, as a sewing fan, this is the place where I could walk for hours and enjoy the colours and the texture of different fabrics. I wish it had been a working day because I would observe how the team was working. With such amounts of orders and assortment, it must be a very complex and interesting process.

#### How did you feel as a model during your photo shoot?

Thanks to the atmosphere created by Mateusz and Arek inicial fright and constraint past very qiuckly. I had had the opportunity to take part in a studio photo shoot before so I exactly knew what I could expect. A camera or video camera have always made me feel confused. Thanks to Mateusz's tips there are a lot of wonderful shots. It will be a lovely souvenir.

#### Tell us more about your impression from "Dresówka Fashion Show".

My first impression as well as thought was that everything was very well organised. And you are a great team. I came a little bit earlier in order to meet Dresówka Team and thanks to that I could observe how everyone was involved in the preparation process so that everything went great. For me it is employees identification with the company. And this is a great success for the management and their treasure which needs to be taken care of.

#### For you "Weekend with Dresówka" was ...

... a great fun and a very interesting experience. I had the opportunity to spend time in a lovely place and to get to know nice people I have been working with for a very long time. I know for sure that a photo shoot as well as its effects will be a motivating factor to my future work.

What are your plans for the future? How will you take advantage of your "5 minutes?"
This is a very difficult question I am trying to find out the answer for.
I have dozens of different thoughts with differents ideas and the same amount of concerns.
One thing I know for sure, I am going to keep sewing, creating and publishing on my blog.
I love doing this and for the time being I can't imagine the lack of the sound of sewing machine in my life.
I hope now I will be braver in my actions in order to get to more followers and perhaps to become an inspiration for them.

Wonderful plans, I will keep my fingers crossed for making them come true :)
